## Local Press

Dear Supporter,

Thank you for supporting the save Symondshyde campaign, which is now gathering pace.

Before the official consultation starts in August, we need to raise awareness and let the developer know that the community are against their proposals.

Having letters published in local papers is an excellent way to raise awareness and will also be an effective method to let the developer and WelHat Council know that their proposals will not make easy progress through the planning system.

We would therefore be very grateful if any residents could write a letter to the local papers speaking out against the proposals. Should you wish to do this, we have reproduced the contact details for the Herts Advertiser and Welwyn Hatfield Times below. Both require that you include a name and address on all correspondence and limit it to 400 words.

- Herts Advertiser: [hertsad@archant.co.uk](mailto:hertsad@archant.co.uk)
- Welwyn Times: [news@whtimes.co.uk](mailto:news@whtimes.co.uk) & [letters@whtimes.co.uk](mailto:letters@whtimes.co.uk)

Our website now contains the high level details about the proposal (with more to follow soon) and should be a good resource for facts you may wish to quote in any letter you may write. A letter published in this week's Herts Advertiser is included on the 'Media' page under 'Latest Updates'.

If you're able to submit a letter, it should reach the local paper by Monday for publication in next week's edition. Please forward anything you may submit to us too and perhaps mention our website so that we can enlist more support.

---

We shall have a stall at the Wheathampstead Village Day on Sunday afternoon (10th July - details on our website). Feel free to come and discuss the plans or to take away some leaflets to give to your friends.

Thank you for any support that you're able to offer.
