Save Symondshyde Campaign - Update

Dear Supporter,

Thank you for joining the **Save Symondshyde** email group. We think it's important that as many people as possible know about Welwyn Hatfield Borough Council's plans to build 1,130 houses, a primary school, and retirement village in the middle of the [Green Belt at Symondshyde](#), close to the John Bunyan pub. Our main priority at the moment is to raise awareness of these plans, so that people can formally object to them at the Local Plan Consultation, which begins on the 22nd August.

Ideally we'd like you to forward this email to as many of your friends as you can and to encourage them to [sign up to our email updates](#). This will mean that we can encourage as many people to object to the plans as possible and give them advice on how to object.

Before the consultation opens, we want you to write to as many of the Welwyn Hatfield Councillors on the Planning Committee as possible, to express your anger and concern over the Symondshyde proposals. Their [details can be found on our website](#).

We were shocked to find out at Wheathampstead Village Day just how few people were aware of these proposals and we are organising more local action days to raise awareness. If you can help, please contact Jill (jillcoggins@save-symondshyde.co.uk).

Finally, we need as much press coverage as possible. Letters to editors of the Herts Advertiser (matt.adams@archant.co.uk) and Welwyn and Hatfield Times (terry.mitchinson@whtimes.co.uk) are an important way of raising awareness of this threat to our Green Belt.

Thank you for your help and please forward to as many people as you can.
